

Aiah Clare Filipinas

FULL-STACK DEVELOPER

Lapu-Lapu City, Cebu, Philippines • +639454903220 • acfilipinas.work@gmail.com

SUMMARY

Computer Science graduate and Full-Stack Developer specializing in building responsive, user-centric web applications. Proven ability to combine robust backend functionality with intuitive front-end design, ensuring both technical performance and strong UI/UX standards.

EDUCATION

Ateneo de Davao University | Magna Cum Laude 2022-2026

- Bachelor of Science in Computer Science
- Ateneo de Davao University Grant-in-Aid Scholar
- Department of Science and Technology Scholar (RA 7687)

CERTIFICATIONS

Cisco Networking Academy

- CCNA: Introduction to Networks
- CyberOps Associate

PUBLICATION

Comparative Evaluation of Large Language Models for Active Video Learning

- This research evaluates the application of Large Language Models (LLMs) within the Active Video Watching (AVW-Space) platform at the University of Canterbury to deliver automated, context-aware feedback for Video-Based Learning (VBL). The framework leverages a multi-model approach: a fine-tuned DeBERTa-v3-base model is deployed to analyze comment quality, while engineered prompts guide Qwen2.5-7B-Instruct and Llama-3.1-8B-Instruct to generate a formative feedback.

EXPERIENCE

UniVents: Admin Web Portal for Ateneo de Davao University 2025-2026
Full-Stack Developer

- A web and mobile application developed for Ateneo de Davao University using Flutter and Dart, backed by Supabase. It allows authorized admins to manage organizations, events, and attendees, features dynamic data fetching, and a responsive UI.

Bean Xpress Cafe: UX/HCI Redesign 2025
UI/UX Researcher & Designer

- Redesigned the Bean Xpress web interface using Figma as part of a UX/HCI project. The redesign focused on improving usability and visual consistency across key pages, including the homepage, cart, products, inventory, and sales report.

DOST Indicators Management Tool (DIMIT): Platform Redesign & Frontend Development 2025
Lead Designer & Frontend Developer

- Executed a complete top-to-bottom redesign of the entire web platform, modernizing the user interface and experience while strictly preserving all existing elements, workflows, and core functionalities. Co-developed the frontend architecture that is now currently deployed and used by DOST.

EXPERIENCE

Agreville Realty Corporation: Billing and Collection System

2024-2025

Lead Developer

- A web application developed with MERN stack that streamlines contract management, billing, payment tracking, tenancy oversight, and maintenance tracking through automation and a centralized database.

TECHNICAL SKILLS

- Frontend & UI/UX: HTML & CSS, Tailwind CSS, JavaScript, TypeScript, React, Flutter, Dart, Figma, Photoshop, Wireframing & Prototyping
- Backend: Python, Flask, Java, Node.js, Express.js, PHP, C#
- Databases & Tools: MongoDB, MySQL, DB Browser for SQLite
- CMS & ERP Platforms: WordPress, Elementor, Odoo
- Developer Tools & Environments: Git, GitHub, Linux (Ubuntu), Linux (Bash/CLI), Visual Studio Code, Apache NetBeans
